DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

2. Claims 38, 39, 41, 42, 44 and 45 are rejected under 35 U.S.C. § 102(e) as being anticipated by Huang et al, U.S. Patent Application Publication No. 2003/0097361 (hereinafter Huang).

Regarding claim 38, Huang discloses a method comprising:
setting a date and time for an event reminder for an event
(dinner) by a first person (Sharon) for a second person (Gerry);
storing (save) said event reminder as configuration for said
second person; scanning said configuration on a periodic basis
for said event reminder; retrieving said date and time for said

Art Unit: 2645

event reminder; placing a call to said person to provide said event reminder at said date and time (see Figure 3A).

Regarding claim 39, see Figure 3A.

Regarding claim 41, see Figure 3A.

Claim 42 is rejected for the same reasons as claim 38.

Regarding claim 44, see Figure 3A.

Claim 45 is rejected for the same reasons as claim 38.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

4. Claims 40, 43 and 46 are rejected under 35 U.S.C § 103(a) as being unpatentable over Huang in view of Pang, U.S. Patent No. 6,167,434 (hereinafter Pang).

With respect to claim 40, Huang does not explicitly teach requesting confirmation as to whether said second person is to attend said event; receiving confirmation from said second person and sending said confirmation to said first person.

Art Unit: 2645

However Pang discloses these limitations (col. 6, lines 25-50). Therefore it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Huang with the confirmation taught by Pang. This modification allows for meetings and appointments to be confirmed as suggested by Huang (paragraph 0052).

Claim 43 is rejected for the same reasons as claim 40.

Claim 46 is rejected for the same reasons as claim 43.

Response to Amendment

5. Applicant's arguments have been considered but are deemed to be moot in view of the new grounds of rejection.
